PROFESSIONAL SUMMARY

Computer Science Engineering (AI & ML) student at Chitkara University with a CGPA of 9.18. Passionate about Artificial Intelligence, Machine Learning, Data Analytics, and Software Development. Strong foundation in Data Structures & Algorithms, Java, Python, and SQL with hands-on experience through academic projects and hackathons. Seeking opportunities to apply technical skills in real-world projects and gain industry exposure.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering (AI & ML)
Chitkara University, Punjab | 2024 – 2028 | CGPA: 9.18/10

Currently pursuing a Bachelor's degree with specialization in Artificial Intelligence & Machine Learning. Developing strong analytical and programming skills through coursework, projects, and practical applications.

TECHNICAL SKILLS

- **Programming Languages:** C++, Java, Python, SQL
- **AI & ML:** Supervised Learning, Unsupervised Learning, K-Means Clustering, Model Evaluation
- **Data Analytics:** Data Cleaning, EDA, Probability, Hypothesis Testing
- **Web Development:** HTML, CSS, JavaScript (Basic)
- **Tools:** VS Code, Jupyter Notebook, Pandas, NumPy
- **Core Concepts:** Data Structures & Algorithms, OOP

PROJECTS

Credit Risk Prediction System

Python, Machine Learning, Logistic Regression, PCA

- Built a credit risk prediction model using Logistic Regression on customer financial data.
- Applied data preprocessing, feature engineering, and PCA to improve model performance.
- Evaluated model effectiveness using standard classification metrics and prediction analysis.

AI-Powered Healthcare Recommendation System

Python, Flask, Machine Learning

- Built a healthcare recommendation system for disease prediction based on user symptoms.
- Applied machine learning techniques for accurate disease classification and recommendation generation.
- Developed a Flask web application providing precautions, medications, diet, and workout suggestions.

Lost No More App (Python)

- Built a lost and found management system
- Implemented efficient data storage and search functionality

HACKATHONS & ACHIEVEMENTS

- Participant – Hack With Her Hackathon
- Participant – AI Nexus Program

ADDITIONAL DETAILS

Languages: English, Hindi

Strengths: Analytical thinking, problem solving, teamwork, quick learner
